Forrester expostulated without avail, and finally took hold of the man by the collar to put him out, when the Italian drew a knife a foot long and plunged it into Forrester's back, inflicting a fatal wound. The Italian was arrested.

A Bad Riot.

By Telegram to THE SENTINEL.

WHEELING, April 26.—A serious riot occurred between negroes and whites at the colored festival at Brainerd, Mercer county, Friday night, in which one colored man was killed and several of both races injured. PERSONAL MENTION.

The following is Sam Jones's program: Baltimore, May 2 to 23; Indianapolis, June 1 to 20; St. Paul, June 23 to 27; Lansing, Mich., June 29 to July 4; Concord, Mass., July 5; Chautauque, July 7 to 11; in Missouri, July 15 to 25; Loveland, O., August 1 to 6; Columbus, O., August 7; Toledo, September 5 to 13; Toronto, Canada, October 3 to 24.

The income of the estate of the late Edwin Forrest is about \$11,000 a year, and of this it costs \$8,000 to keep up the institution at Holmesburg, Pa., which he founded as a home for superannuated actors. There are at present but eleven inmates in the institution.

Antoine Goulard, who came to America many years ago and made a fortune as a wine importer, died Wednesday in Brooklyn, aged eighty-two. On opening his will it was found the Goulard left property worth \$2,000,000, much of it being in Spain, where he lived long ago. He left personal property and jewelry worth \$300,000 to his friend, Niles Kant, a druggist, and about \$400,000 worth of property to his only other intimate friend, Col. C. S. Spencer, the well-known New York criminal lawyer. The Spanish property mostly goes to Don Tompelo Serra, of Matara, Catalonia, Spain.

A YOUNG INVENTOR.

W. T. Silvey, Who Anticipated Edison in the Induction Telegraph.

The inventor of the induction telegraph—the system of telegraphing from moving railway trains—and the man who is believed to be the most promising young inventor before the public, is William L. Silvey, of Cincinnati. He is but 25 years of age, and already has secured several patents of great value to electrical progress. He was born at Castleton, Ind., in 1860. His father, Zachary Silvey, has been dead thirteen years. His mother, Mrs. Catharine Silvey, resides on the homestead farm, near Castleton. Young Silvey only had the advantages of a common school education. Electrical science, for which he neglected everything else, has been his constant study since he was 16 years old. He has pursued this study under great disadvantages, his workshops being such odd corners as he could appropriate to his use in the outbuildings on his mother's farm. His experiments in inductive telegraphy were made on wires

stretched in the orchard, and on these he perfected his invention, first telegraphing from one wire to another forty feet distant. His first successful experiment in this was made in 1879, when he was but 19 years of age. His patent for the inductive telegraph was issued July 12, 1881, the application having been made in 1880. This invention promises to revolutionize the system of handling railroad trains, and is regarded as the most important step yet taken relating to the application of electricity. He also has valuable improvements on his inductive telegraph apparatus, issued a year later than the original patent. Few inventors of any country have accomplished so much at so early an age, and Mr. Silvey's wonderful achievements have naturally attracted a great deal of attention to himself. He is a practical, industrious, young mechanic, modest even to diffidence, and apparently unconscious of the high rank he has taken in the world of progress.

United States Minister to Spain. The president of the Missouri Press association is Col. Jacob T. Child, who has recently been appointed our minister to Spain. Col. Child is of Quaker ancestry, as his appearance would indicate. He was born in Philadelphia in 1832. At the age of 5 years he removed with his parents to Richmond, Va., where he attended the common schools, and was subsequently apprenticed to the office of The Richmond Whig. In 1855 Mr. Child raised a company of young men and accompanied them to "Bleeding Kansas," taking an active part in the Doniphan expedition. Afterwards he went to St. Joseph and started The Tri-weekly Journal, which, in the course of a year, was converted into the first daily paper published in the Missouri valley. At the outbreak of the civil war, although surrounded by sympathizers with the

south, he enlisted on the side of the Union, and was commissioned a major in Col. Robert Stewart's regiment. His paper was thereupon suppressed by Gen. Sterling Price, but he revived it during the war, and afterward started The Evening News in connection with Charles Thompson, a brother of the noted Gen. Jeff. Thompson. He became adjutant of the Twenty-first Missouri regiment, and subsequently colonel, but shortly afterward resigned his commission. Col. Child assisted in establishing The Union newspaper of St. Joseph, but severed his connection with it in 1866. He then moved to Richmond, Ray county, and purchased The Conservator, which he has continued to publish ever since.

PRINCELY HONOR.

Very Rev. Father Brammer Created Vicar General of The Diocese of Fort Wayne.

After the vesper services at the cathedral, yesterday, Rev. J. F. Lang, chancellor of the diocese, announced the promotion by Right Rev. Bishop Dwenger of Rev. Father Joseph H. Brammer to be vicar general of the diocese of Fort Wayne. The announcement was a surprise to all. The clergy and Catholics of the diocese will rejoice, at the news, and the members of the cathedral congregation, who love their pastor, will deem it the happiness of their lives to worship the new prince of the church, for indeed the sacred calling

is next in rank and responsibility to that of bishop, and gives him jurisdiction over the diocese of Fort Wayne. The success of his work among the cathedral people, whom he has served for eighteen years, in leading them in the ways of righteousness can be somewhat understood by noticing the many well organized sodalities and pious confraternities of that great parish. His persevering energy, his great charity and his great devotion to his calling has made him endeared to the hearts of his people and to the people generally of the city of Fort Wayne.

Father Brammer was born in Germany, October 1, 1839, and was reared in the Lutheran faith. During his early years of manhood he was apprenticed to learn the carpenter trade.

In 1854 he came to America and settled in St. Louis, following the avocation of his trade.

Whilst attending a series of lectures given by Jesuit fathers in the city just named, the young man became interested in Catholicity and made it his study for a year or more, and was finally received into the church, the 18th of September, 1859.

About a year afterwards he entered college to prepare for the priesthood. He attended the well known institution of St. Vincent's, Pennsylvania, and finished his theological course at Mount St. Mary's seminary, Cincinnati, as a student of the diocese of Fort Wayne. He was ordained a priest in the cathedral in this city by Right Rev. Bishop Luers, May 11, 1868. His first appointment was as assistant to Father Benoit in the cathedral congregation. During the declining years of the venerable pastor and builder of the cathedral, Father Brammer was appointed his successor and has ever since worked in that capacity.

In 1878 he visited Europe. Among other places of note he spent some time at Lourdes and Rome, where he met Leo XIII, the present pontiff.

In 1881 he began the erection of Fort Wayne's proudest monument, the beautiful edifice on Calhoun and Lewis streets, known as Library Hall. The cornerstone was laid by Right Rev. Bishop Dwenger, and the sermon on the occasion was preached by Bishop Spalding, of Peoria, on the 3d of July, 1881. The building cost about \$65,000.

During Bishop Dwenger's absence in Rome from March 4, 1885, to October of the same year, Father Brammer was administrator of the diocese. His prudent management of affairs during these eight months of the bishop's absence was highly commended by the clergy of the diocese.

CHICAGO, April 26.—While the railroad men insist they made no terms looking to the removal of the eight objectionable switchmen, it is hinted that Sheriff Hanchett did, and that he made the guarantee relying on the promises of the business men to make such liberal offers to the switchmen as to cause them to accept and thus leave the service of the railroad. The men, however, deny any knowledge of such arrangement.

TEMPERANCE.

The Meeting of the Twelfth District Convention.

The W. C. T. U. of the Twelfth district met in convention at Garrett, Del. County, on the 14th and 15th of April, 1886, with Miss Hayden, our district president in the chair. The first session opened at 3 p. m. at the M. E. church, with a good representation from all parts of the district. The devotional exercises were led by Mrs. Louis, of Angola, and an earnest, fervent prayer by Mrs. Gale for the cause of temperance, which she is working for. Then followed the address of welcome by Mrs. Jones, of Garrett, in a very cordial manner, and responded to very appropriately by Mrs. Hubbard, of LaGrange. The usual committees were then appointed: Mesdames Hartman, Hubbard, Gale, Ford and Miss McDaniels, on resolutions; Mesdames Lewis, Omo, Clarkson, Quishing, Hubbard and Ross, on press work. A discussion then took place concerning W. C. T. U. work at Island Park during the assembly, and the result was that the county presidents of the districts make the necessary arrangements to have temperance headquarters there this coming season.

Rev. Mr. Hale of Angola, read a paper on "Social Parity," which showed discussion, ability, and careful study. Motion was made and carried that the address be printed and circulated in that department of work. The evening session opened with a full house, and after devotional service, led by Mrs. Omo, the state president, Mrs. Nichols, was introduced, and gave quite a lengthy address on the "Social Aspect of Temperance," which was well received. Mrs. Gale then gave a spicy little speech, which resulted in a collection of over \$11, which, of course, was gratefully received. On the following day, after devotional service, led by Mrs. Graham, of Whitley, the reports of committees were called for, and also of county presidents, who reported that the work of organizing local unions and other departments under their supervision was moving as rapidly forward as time, means and public sentiment would permit. Motion was made to discontinue district organizations, but the majority were in favor of continuation. Different methods of conducting "Bands of Hope" were presented and discussed. Superintendents of different departments were then appointed, Mrs. Jones, of evangelistic work, Mrs. Wiley, of Sabbath observance and Mrs. Gale, of social purity. On the evening of the last day the convention was addressed by Rev. Wiley, of Ray, on the subject of "Moral Reform Associations," which was well worth hearing. This closed our convention exercises. Our next will be held at Angola the third week of April, 1887. Thanks to the good people of Garrett for their hospitality and the kindness in which they received the delegates and visitors.

A Progressive Business House and its Fine Appointments.

Franks & Wellman, the new firm of undertakers, have just completed the furnishing of their new ware and sales rooms on the corner of Clinton and Main street. The windows are made attractive with the choicest flowers and the house has the air of a floral garden rather than a place where the modest as well as the most costly caskets are kept. The location is an excellent one being in the Miner block and was for years occupied by L. T. Bonrie & Co. as a wholesale liquor store. The new firm deserves every measure of success. Both gentlemen are well known, both are experienced business men, and both are gentlemen in every sense of the term. They have besides a most excellent stock and have without doubt the finest establishment of the kind in the state. Every man's ambition does not run in the same direction, else people would die purposely to be buried by the new firm of Franks & Wellman.

The Subject of Sam Jones' Sermon.
Look here, brother. In the first place you don't believe what you say about this. If there's anybody that ought to be happy and cheerful and enjoy themselves, it is the Christian! Isn't that so? And these old fellows you see mauling and moaning about the church—that ain't religion. It is liver disease that's got hold of 'em. There's many a fellow thinks he's got heart religion, and there's nothing the matter with him except liver complaint. That's so! I've been that way myself. I know how it is. I can laugh and I can enjoy anything. If that's what you think you needn't come to the altar to-night. You get Simmons Liver Regulator, that's what cured me. It

BEREFT OF REASON.

Sad Case of a Fort Wayne Citizen Who Loses His Mind Through Sickness—He Falls into the Hands of a Sharper Here, Who Attempts to Secure His Money.

Lafayette Courier, Saturday.

Last evening the attention of those who happened to be at the Wabash depot between 5 and 6 o'clock, was attracted by the peculiar actions of a middle-aged man who appeared to be insane. His hallucinations carried him back to the time he was a soldier in the war, and he thought he was again in the midst of a battle, and went through all the motions of loading and firing, charging and retreating. When a locomotive which was switching in the yards came steaming past the depot he mistook it for a charge of the solid columns of the enemy, and as the engine came opposite to him he made a charge at it, and but for the interposition of Watchman Fisher, who caught and held him in his arms until the engine had passed, he would have thrown himself against it and been killed. He appeared to be in charge of a man who looked like a deputy sheriff, whom he addressed as general. This man strengthened this supposition by saying that he was taking him to his friends in Tilton. At 6 o'clock they got aboard the west bound accommodation. A few minutes after the train had gone a telegram arrived from Fort Wayne asking about him, and saying to hold him. This message was forwarded to Conductor McKone, and at Danville the man was turned over to the police to await further instructions.

At 10 o'clock last night his wife arrived here in search of him, and at the depot she told the following story about her husband's insanity:

His name is Melvin Hillis; for a year past he has been foreman in the tool department of the Wabash road, with headquarters at Fort Wayne; last Monday he was taken sick with lung trouble and gradually grew worse until Wednesday night, when for a time it was thought he would die, but toward morning he ceased to complain of the great pain in his chest and from that time his mind began to wander; at first he thought there was some one in the house; then he imagined that a mob was outside waiting to kill him, and getting up he opened the window and made a long speech to the imaginary crowd. Thursday morning he got up and went down town and drank more or less whisky during the day. At night he repeated the ravings of the night before, and all the week not a morsel of food has he been known to have eaten. Yesterday morning he went to headquarters, asked for his time and drew his money, a little over \$42. He asked for a pass to Tilton, and without saying a word to his wife got aboard the train and left. The man with him, Mrs. Hillis thinks, is working him for his money. She is broken hearted. At 12 o'clock she went on to Danville, where they have her husband in jail awaiting her coming. She arrived there this morning and will return to Fort Wayne with him on the 4 o'clock train this afternoon. Nothing further could be learned of the man who appeared to be his keeper.

Mr. Hillis is now at his home, No. 25 Holman street. He is still out of his mind, and there is no likelihood of his immediate recovery. His wife keeps watch over him.

Wabash and Western Indiana.

The Central Trust Company has filed in the United States court, at Chicago, its answer to the cross-bill of the Chicago and Western Indiana Railroad company in the case of the Wabash, Pacific and St. Louis Railroad company against the Central Trust company. The answer makes a claim for rental due for terminal facilities leased by the trust company to the Wabash road. It denies that there is \$46,564.87 or any other sum due from the Wabash to the Western Indiana for rentals, or that if any sum were due for such rentals it would be in equity or a lien on the leasehold interest referred to in the cross-bill. Judge Gresham made an order that no sales of the property of the Wabash road should in any manner affect the rights of either party in reference to the claims of either party.

The income of the estate of the late Edwin Forrest is about \$11,000 a year, and of this it costs \$8,000 to keep up the institution at Holmsburg, Pa., which he founded as a home for superannuated actors. There are at present but eleven inmates in the institution.

On opening his will it was found the Goulard left property worth \$2,000,000, much of it being in Spain, where he lived long ago. He left personal property and jewelry worth \$300,000 to his friend, Niles Kent, a druggist, and about \$400,000 worth of property to his only other intimate friend, Col. C. S. Spencer, the well-known New York criminal lawyer. The Spanish property mostly goes to Don Tompelo Herr, of Malaga, Catalonia, Spain.

A YOUNG INVENTOR.

W. T. Silvey, Who Anticipated Edison in the Induction Telegraph.

The inventor of the induction telegraph—the system of telegraphing from moving railway trains—and the man who is believed to be the most promising young inventor before the public, is William L. Silvey, of Cincinnati. He is but 25 years of age, and already has secured several patents of great value to electrical progress. He was born at Castleton, Ind., in 1860. His father, Zachary Silvey, has been dead thirteen years. His mother, Mrs. Catharine Silvey, resides on the homestead farm, near Castleton. Young Silvey only had the advantages of a common school education. Electrical science, for which he neglected everything else, has been his constant study since he was 16 years old. He has pursued this study under great disadvantages, his workshops being such odd corners as he could appropriate to his use in the outbuildings on his mother's farm. His experiments in inductive telegraphy were made on wires

W. T. SILVEY.

stretched in the orchard, and on these he perfected his invention, first telegraphing from one wire to another forty feet distant. His first successful experiment in this was made in 1879, when he was but 19 years of age. His patent for the inductive telegraph was issued July 12, 1881, the application having been made in 1880. This invention promises to revolutionize the system of handling railroad trains, and is regarded as the most important step yet taken relating to the application of electricity. He also has valuable improvements on his inductive telegraph apparatus, issued a year later than the original patent. Few inventors of any country have accomplished so much at so early an age, and Mr. Silvey's wonderful achievements have naturally attracted a great deal of attention to himself. He is a practical, industrious, young mechanic, modest even to diffidence, and apparently unconscious of the high rank he has taken in the world of progress.

United States Minister to Siam. The president of the Missouri Press association is Col. Jacob T. Child, who has recently been appointed our minister to Siam. Col. Child is of Quaker ancestry, as his appearance would indicate. He was born in Philadelphia in 1832. At the age of 5 years he removed with his parents to Richmond, Va., where he attended the common schools, and was subsequently apprenticed in the office of The Richmond Whig. In 1855 Mr. Child raised a company of young men and accompanied them to "Bloody Kansas," taking an active part in the anti-slavery expedition. Afterwards he went to St. Joseph and started The Tri-weekly Journal, which, in the course of a year, was converted into the first daily paper published in the Missouri valley. At the outbreak of the civil war, although surrounded by sympathizers with the

south, he enlisted on the side of the Union, and was commissioned a major in Col. Robert Stewart's regiment. His paper was thereupon suppressed by Gen. Sterling Price, but he revived it during the war, and afterward started The Evening News in connection with Charles Thompson, a brother of the noted Gen. Jeff. Thompson. He became adjutant of the Twenty-first Missouri regiment, and subsequently colonel, but shortly afterward resigned his commission. Col. Child assisted in establishing The Union newspaper of St. Joseph, but severed his connection with it in 1865. He then moved to Richmond, Ray county, and purchased The Conservator, which he has continued to publish ever since.

PRINCELY HONOR.

Very Rev. Father Brammer Created Vicar General of The Diocese of Fort Wayne.

After the vesper services at the cathedral, yesterday, Rev. J. F. Laug, chancellor of the diocese, announced the promotion by Right Rev. Bishop Dvenger of Rev. Father Joseph H. Brammer to be vicar general of the diocese of Fort Wayne. The announcement was a surprise to all. The clergy and Catholics of the diocese will rejoice, at the news, and the members of the cathedral congregation, who love their pastor, will deem it the happiness of their lives to worship the new prince of the church, for indeed the sacred calling

is next in rank and responsibility to that of bishop, and gives him jurisdiction over the diocese of Fort Wayne. The success of his work among the cathedral people, whom he has served for eighteen years, in leading them in the ways of righteousness can be somewhat understood by noticing the many well organized sodalities and pious confraternities of that great parish. His persevering energy, his great charity and his great devotion to his calling has made him endeared to the hearts of his people and to the people generally of the city of Fort Wayne.

Father Brammer was born in Germany, October 1, 1859, and was reared in the Lutheran faith. During his early years of manhood he was apprenticed to learn the carpenter trade.

In 1884 he came to America and settled in St. Louis, following the avocation of his trade.

While attending a series of lectures given by Jesuit fathers in the city just named, the young man became interested in Catholicity and made it his study for a year or more, and was finally received into the church, the 18th of September, 1869.

About a year afterwards he entered college to prepare for the priesthood. He attended the well known institution of St. Vincent's, Pennsylvania, and finished his theological course at Mount St. Mary's seminary, Cincinnati, as a student of the diocese of Fort Wayne. He was ordained a priest in the cathedral in this city by Right Rev. Bishop Tiners, May 11, 1868. His first appointment was as assistant to Father Benoit in the cathedral congregation. During the declining years of the venerable pastor and builder of the cathedral, Father Brammer was appointed his successor and has ever since worked in that capacity.

In 1878 he visited Europe. Among other places of note he spent some time at Lourdes and Rome, where he met Leo XIII, the present pontiff.

In 1881 he began the erection of Fort Wayne's proudest monument, the beautiful edifice on Calhoun and Lewis streets, known as Library Hall. The cornerstone was laid by Right Rev. Bishop Dvenger, and the sermon on the occasion was preached by Bishop Spalding, of Peoria, on the 3d of July, 1881. The building cost about \$65,000.

During Bishop Dvenger's absence in Rome from March 4, 1885, to October of the same year, Father Brammer was administrator of the diocese. His prudent management of affairs during these eight months of the bishop's absence was highly commended by the clergy of the diocese.

TEMPERANCE.

The Meeting of the Twelfth District Convention.

The W. C. T. U. of the Twelfth district met in convention at Garrett, DeKalb county, on the 14th and 15th of April, 1886, with Miss Hayden, our district president in the chair. The first session opened at 3 p. m. at the M. F. church, with a good representation from all parts of the district. The devotional exercises were led by Mrs. Lonia, of Angola, and an earnest, fervent prayer by Mrs. Gale for the cause of temperance, which she is working for. Then followed the address of welcome by Mrs. Jones, of Garrett, in a very cordial manner, and responded to very appropriately by Mrs. Hubbard, of LaGrange. The usual committees were then appointed: Mesdames Hartman, Hubbard, Gale, Ford and Miss McDaniels, on resolutions; Mesdames Lewis, Omo, Clarkson, Quishing, Hubbard and Ross, on press work. A discussion then took place concerning W. C. T. U. work at Island Park during the assembly, and the result was that the county presidents of the districts make the necessary arrangements, to have temperance headquarters there this coming season.

Rev. Mr. Hule of Angola, read a paper on "Social Purity," which showed depression, ability, and careful study. Motion was made and carried that the address be printed and circulated in that department of work. The evening session opened with a full house, and after devotional service, led by Mrs. Omo, the state president, Mrs. Nichols, was introduced, and gave quite a lengthy address on the "Social Aspect of Temperance," which was well received. Mrs. Gale then gave a spicy little speech, which resulted in a collection of over \$11, which, of course, was gratefully received. On the following day, after devotional service, led by Mrs. Graham, of Whitley, the reports of committees were called for, and also of county presidents, who reported that the work of organizing local unions and other departments under their supervision was moving as rapidly forward as time, means and public sentiment would permit. Motion was made to discontinue district organizations, but the majority were in favor of continuation. Different methods of conducting "Bands of Hope" were presented and discussed. Superintendents of different departments were then appointed, Mrs. Jones, of evangelistic work, Mrs. Wiley, of Sabbath observance and Mrs. Gale, of social purity. On the evening of the last day the convention was addressed by Rev. Wiley, of Ray, on the subject of "Moral Reform Associations," which was well worth hearing. This closed our convention exercises. On next will be held at Angola the third week of April, 1887. Thanks to the good people of Garrett for their hospitality and the kindness in which they received the delegates and visitors.

Miss Minnie Grout died yesterday just before 1 o'clock, at the home of L. D. Ward, No. 71 Lasselle street, after a lingering illness of six months' duration. Miss Grout was twenty-five years of age and was much beloved by a wide circle of friends, who will mourn her untimely death. She was for eight years a saleslady at the store of Mr. A. Mergenthau and endeared herself to everyone she met. Miss Grout was most kindly and constantly nursed through her illness by Mrs. A. E. Grout, her sister. FRANKS & WELLMAN.

A Progressive Business House and its Fine Appointments.

Franks & Wellman, the new firm of undertakers, have just completed the furnishing of their new ware and sales rooms on the corner of Clinton and Main street. The windows are made attractive with the choicest flowers and the house has the air of a floral garden rather than a place where the modest as well as the most costly coffrets are kept. The location is an excellent one being in the Miner block and was for years occupied by J. T. Bonrie & Co., as a wholesale liquor store. The new firm deserves every measure of success. Both gentlemen are well known, both are experienced business men, and both are gentlemen in every sense of the term. They have besides a most excellent stock and have without doubt the finest establishment of the kind in the state. Every man's ambition does not run in the same direction, else people would die purposely to be buried by the new firm of Franks & Wellman.

THE expulsions of Poles and Russians from Upper Silesia continue. In Jabrya a month ago not less than sixty-nine persons, among them thirty-eight children, received orders to leave by the first of April. From Koenigsbrunne fifteen were expelled. A brick-maker named Spulek, from Russian Poland, committed suicide by hanging himself after receiving the order of expulsion, from fear of starvation. Another one froze to death while on his way to the frontier.

"WHAT WAIT I FOR?"

The Subject of Sam Jones' Sermon.

Look here, brother. In the first place you don't believe what you say about this. If there's anybody that ought to be happy and cheerful and enjoy themselves, it is the Christian! Can't that be so? And these old fellows you see rambling and mumbling about the church—that ain't religion. It is liver disease that's got hold of 'em. There's many a fellow thinks he's got heart religion, and there's nothing the matter with him except liver complaint. That's a no! I've been that way myself. I know how it is. I can laugh and I can enjoy anything. If that's what you think you needn't come to the altar to-night. You get Simmons Liver Regulator, that's what cured me.

BEREFT OF REASON.

Sad Case of a Fort Wayne Citizen Who Loses His Mind Through Sickness—He Falls Into the Hands of a Sharper Here, Who Attempts to Secure His Money.

Lafayette Courier, Saturday.

Last evening the attention of those who happened to be at the Wabash depot between 5 and 6 o'clock, was attracted by the peculiar actions of a middle-aged man who appeared to be insane.

His hallucinations carried him back to the time he was a soldier in the war, and he thought he was again in the midst of a battle, and went through all the motions of loading and firing, charging and retreating. When a locomotive which was switching in the yards came steaming past the depot he mistook it for a charge of the solid columns of the enemy, and as the engine came opposite to him he made a charge at it, and but for the interposition of Watchman Fisher, who caught and held him in his arms until the engine had passed, he would have thrown himself against it and been killed.

He appeared to be in charge of a man who looked like a deputy sheriff, whom he addressed as general. This man strengthened this supposition by saying that he was taking him to his friends in Tilton. At 6 o'clock they got aboard the west bound accommodation. A few minutes after the train had gone a telegram arrived from Fort Wayne asking about him, and saying to hold him. This message was forwarded to Conductor McKone, and at Danville the man was turned over to the police to await further instructions.

At 10 o'clock last night his wife arrived here in search of him, and at the depot she told the following story about her husband's insanity:

His name is Melvin Hillis; for a year past he has been forlorn in the tool department of the Wabash road, with headquarters at Fort Wayne; last Monday he was taken sick with lung trouble and gradually grew worse until Wednesday night, when for a time it was thought he would die, but toward morning he ceased to complain of the great pain in his chest and from that time his mind began to wander; at first he thought there was some one in the house; then he imagined that a mob was outside waiting to kill him, and getting up he opened the window and made a long speech to the imaginary crowd. Thursday morning he got up and went down town and drank more or less whiskey during the day. At night he repeated the ravings of the night before, and all the week not a morsel of food has been known to have eaten. Yesterday morning he went to headquarters, asked for his time and drew his money, a little over \$42. He asked for a pass to Tilton, and without saying a word to his wife got aboard the train and left. The man with him, Mrs. Hillis thinks, is working him for his money. She is broken hearted. At 12 o'clock she went on to Danville, where they have her husband in jail awaiting her coming. She arrived there this morning and will return to Fort Wayne with him on the 4 o'clock train this afternoon. Nothing further could be learned of the man who appeared to be his keeper.

Mr. Hillis is now at his home, No. 25 Holman street. He is still out of his mind, and there is no likelihood of his immediate recovery. His wife keeps watch over him.

Wabash and Western Indiana.

The Central Trust Company has filed in the United States court, at Chicago, its answer to the cross-bill of the Chicago and Western Indiana Railroad company in the case of the Wabash, Pacific and St. Louis Railroad company against the Central Trust company. The answer makes a claim for rental due for terminal facilities leased by the trust company to the Wabash road. It denies that there is \$46,564.87 or any other sum due from the Wabash to the Western Indiana for rentals, or that if any sum were due for such rentals it would be in equity or a lien on the leasehold interest referred to in the cross-bill. Judge Grosham made an order that no sales of the property of the Wabash road should in any manner affect the rights of either party in reference to the claims of either party.
